## Python Developer (m/w/\*)

### Beschreibung

LOGMEDIA is located in the south of Austria between wonderful mountains and lakes close to the sea. We develop web solutions and sophisticated ecommerce-solutions for customers and also develop our own-solutions for the European market. We attach great importance to quality and security in our solutions and always use the newest software technology.

Since 2017 Python is the most popular programming language in the world!

**More about this in [english](#) and in [german](#).**

LOGMEDIA is focusing on Python since 2017. So we are on the right road of digital excellence. We are looking for Python-Pros to start our next growth in new markets.
